

This training is addressed to suppliers or potential suppliers of PSA Peugeot-Citroën who wish their teams to use all the logistics applications of the PSA B2B Portal.

1 day

## Target groups:

- Project Managers
- Sales Directors, Key Account Managers for PSA Peugeot-Citroën
- Logistics Managers
- Members of Operational Logistics Team
- Any person wishing to acquire competencies in the implementation of logistics processes (from planning to realization) with the PSA Peugeot-Citroën Group

## Objectives and Results :

- ✓ Know, understand and master logistics tools of the PSA Peugeot-Citroën Portal
- ✓ Enable teams to effectively assess logistics processes

## Requirements :

- Knowledge in logistics

## Your trainer :

- Training is conducted by a PSA logistics project manager.

## Content and methodology of training:

- Phase 1: Presentation of PSA Peugeot-Citroën and its logistics
- Phase 2: The MRF and Supplier Logistics Guidebook
- Phase 3: PSA Peugeot-Citroën B2B portal
- Phase 4: PLE (Electronic Logistics Protocol)
- Phase 5: Am@deus application – Logistics failures
- Phase 6: Neo Logistics application – Service Rate Indicator
- Phase 7: SPEED (Spare parts Partnership, Efficiency and Data exchange) application
- Phase 8: CORAIL – Supplier Performance
- Phase 9: CORFOU application
- Phase 10: DEMAT Purchasing, Finance, and Logistics applications
- Phase 11: COMTEC

The training is based on the structure of the logistics guidebook of PSA Peugeot-Citroën and the supplier Portal. It helps to know all tools in the supplier portal and to meet expectations of the OEM.

Dates for 2015: March 23, November 20
